ALBANY, April 29.—The Saturday Half-Holiday bill received its finishing touches in both houses to-day. When it was sent to the Governor the first time he found so much fault with it that it was recalled to be amended. The Senate made quick work with the emendations which the Governor desired to have made. In the Assembly, however, the merits of the bill were gone over again in debata. The amendments proposed were made the occa-sion for attack on the bill by the members who opposed it on its entire progress through the Legislature. Two members, Walter G. Smith, of Tompkins, and Mr. Cornwall, of Yates, voted against reconsidering the vote by which it passed originally. On the question of passing it again to-day after the Governor's amendments were put in, the following members voted against it:

in, the following members voted against it:

Arnold of Otseyo, Babcock of Ontario, Bates of Orleans, Baucus of Rensselaer, Brunnings of Stenben, Cornwall of Yates, Crosby of New-York, Davis of Wayne, Evans of Oneida, Goerss of Nangara, Hall of Oneida, Ingersoil of Cattaraugus, Leete of Madison, Mabis of Putnam, Mase of Dutchess, McCarthy of Onondiega, Robinson of Llyingston, Saxton of Wayne, Sime of Mouroe, Robinson of Livingston, Saxton of Wayne, Streens of Schoharie, Turner of Chenango, Tisdale of Cortland, Thomson of Delaware, White of Caynga, Of these twenty-nine, Stevens is the only Democrat.

As amended and as it will probably be signed, the bill is as follows, amending chapter 27, laws of 1875, as

is as follows, amending chapter 27, laws of 1875, as amended by chapter 30, laws of 1881:

The following days and half-days, namely, the first day of January, commonly called Now Year's Day; the twenty-second day of February, known as Washin ton's Birthday; the thirtieth day of May, known as Decoration Day; the first Montay of September, to be known hereafter as Labor Day; the twenty-fifth day of July, called Independence Day, the first Montay of September, to be known hereafter as Labor Day; the twenty-fifth day of December, known as Christmas Day; any general election day in this state; overy Saturday from twelve o'clock at moon until twelve o'clock at midnight, which is hereby designates a 18th holiday, and any lay appointed or recommended by the Governor of this State, or the President of the United States, as a day of thanksgiving, or fasting and prayer, or other religious observance, shall, for all purposes whatever as regards the presenting for payment or acceptance, and of the protesting and giving notice of the dishonor of bills of exchance, bank checks and promissory notes, made after the passage of this act, be treated and considered as the first day of the week, commonly called Sunday, and as public holidays or half-holidays; and all such bills checks and notes otherwise presentable for acceptance or payment on any of the stid days shall be desimed to be payable and be presentable for acceptance or payment on any of the stid days shall be desimed to be payable and be presentable for acceptance or payment at or before 12 o'clock moon of this day.

Provided, however, that for, the purpose of protesting or otherwise holding liable any narry to any bill of exchange, check or promissory note, due which shall not have been paid before 12 o'clock at noon on any Saturlay, a demand of acceptance or payment thereof may be made and notice of protest or dishonor thereof may be given on the next succeeding secular or business day. And provided, further, that when any person shall receive for collection any check mended by chapter 30, laws of 1831: except sindays, such offices shall be kept open for the transaction of business.

Whenever the 1st day of January, the 22d day of February, the 30th day of May, the 4th day of July or the 25th day of December shall fall upon Sunday, the next Monday following shall be decided a public holiday for all or any of the purposes atoresaid; provided, however that in such case all bills of exchange, checks and promissory notes made after the passage of this act which would otherwise be presentable for acceptance or payment on the said. Monday shall be deemed to be presentable for acceptance or payment on the secular or business day next succeeding such hobiay.

This act shall take effect on the feuth day after its passage as certified by the Secretary of State.

THE MAYOR IN THE SUBWAY COMMISSION. COMMISSION TO DRAFT GENERAL LAWS - MR. WIMAN'S PIERS-A VETO.

THE REGULAR CORRESPONDENT OF THE TRIBUNE. ALBANY, April 29 .- There was a fight in the Assembly to-day over the bill extending the terms of the Electrical Subway Commissioners of New-York and adding Mayor Hewitt to the commission. Mr. McCarthy moved that the bill should be ordered to a third reading. Messrs. Cantor and Ives desired that Controller Loew and Com-missioner Newton, of the Department of Public Works, should be added to the commission as well as Mayor Hewitt. They attempted to offer an amendment to this effect but were cut off from doing so by the previous question being ordered. Mr. Ives said:

The authorities of New-York do not want this bill in its present shape. It is not fair that regardless of the wish of the New York delegation, regardless of the wish of the New York press, regardless of the wish of the New York press, regardless of the wish of the New-York press, regardless of the wish of the New-York people, others should take it upon themselves to cut short debate and the right of appendiment.

ight of amendment.

Mr. Cantor—The bill now upon our files is not the same bill hat I had the pleasure of introducing in February last. The nit objection that I know of by some of the New-York City pre-entatives is that all the city authorities originally amed in the bill are not in it now. I desire simply to see all the wires go underground and that the people of New-ork shall receive adequate compensation for the franchise of e subway company. Nothwithstanding the opposition of Messra Ives

and Cantor and of most of the New-York delegation, Mr. McCarthy's motion to order the bill to a third reading was adopted by a vote of 64 to 15. Mr. Baker's bill providing for the appointment of a

commission of three persons by the Governor to draw up general laws for presentation to the next Legislature, was considered in the Assembly as a special order for next Wednesday.

Section 1.—The Comm-saloners of the Land Office are hereby authorized as they may taink best for the promotion of the commercial interests of the port of New York, to extend the bulkness and pier interest in the salores of Staten Island, in the County of Ruchmond, so far as relates to the same between the Narrows and Fort Wadsworth on the south and the point of commencement of the Kill Von Kull at the loot of Nacholasst, on the north.

Section 2.—This act shall take effect immediately.

Governor Hill sent to the Assembly a rather comically orded veto to-day of a bill of Senator Fassett's for the regulation of primaries in the city of Elmira. The Gov-

regulation of primaries in the circ.

This bill proposes to regulate political primaries and conventions for the nomination of city officers in said city, and to make the violation of an; of the provisions thereof a misdemeanor. There are only three serious objections to the bill: First, it is unconstitutional. Section, if the provisions of the bill are meritorious, its merits should not be confined to the city of foliaria, but should be extended at least to sit other cities similarly situated. Thirt, it is well known that a general bill for the regulation of political primaries and conventions is now ponding in the Legislature, which passed, will apply to the city of Emiria and render the bill herewith returned uninconsary. A carefully trained general act which preferable to any special legislation.

RUMOK'S BUSY DAY AT THE CUSTOM HOUSE. Collector Magone was honored with visits by several well-known Democrats yesterday. Congressman Tim-othy J. Campbell greeted the Collector cordially and then had a long and pleasant conversation with him, pre-sumably in the interest of the "constitueents" of "Tim's

sumably in the interest of the "constitueents" of "Tim's deestrict." John E. Develin, the recognized chief of the County Democracy faction, also had a conference with the Collector. Ex-Mayor Grace called later, and he and the Collector left the Custom House together. The Collector lass received a confirmation of three new appointments made upon political grounds solely. They were Frederick N. Dodge, William B. Laruer and George H. Davis. Mr. Davis is secretary of the German-American Independent Association, and the others belong to Tammany. The appointments are confidential cierks with the litles of "deputy collector."

The quiet removal of Elmore O. Stratton, entry clerk in the Fifth Division, on Thursday, caused considerable comment among the brokers who looked upon him as a man of marked efficiency and experience, and characterized it as a removal for a "place for a new candidate. The reasons for his removal were sall to be because of his family relations. It is said that he had been separated from his wife for eighteen years, and that recently she brought suit against him for divorce. The Beattle-Wyatt row continues to be a topic of discussion at the Custom House, and a new feature was connected with it yesterday in the avowal that should Secretary Fairchild decide against Surveyor Beattle the latter would peremptorily resign.

A RESULT OF THE NEW LAW.

Basion Correspondence Providence Journal.

I met the other thy a man who is on the road a good deal, and who has a near relative in an important position in one of the large railway corporations.

"I'we been serving my time," he observed jocosely.

"serving your time i" was the response. "Your time at what! What do you mean?"

"Why," he explained, "I conton't have my annual pass except as an employe of the road, so I hired as a clork this morning, did four minutes' work, smoked and read the papers a couple of hours, and now am excused from active work at the onice untifurther notice. Of course, now I am in the employ of the company there is no trouble about the pass."

"On, nonsense. It can't come up, and what if it did. There are hundreds of such cases, and it would take six years to get a test case through the Supreme Court, and before that time the violaters of the law would be more numerous than the sands of the sea."

The president of one of the most important rair roads running out of Boston said:

"One result of the law is that certain freights we carry would under the strict application of the law all go out of our hands; but there are ways of meeting that difficulty. We changed our classification, that was all, and if the Commission can master the details of the classification of freights they will be doing rather more than I have been able to accomplish."

plish."
The whole matter is attended with infinite com-plications, and the public feeling is so strong that it is by no means difficult to foresee that the result is likely to be an early repeal of the law.

DISSATISFACTION AT AN EXCHANGE. DISSATISFACTION AT AN EXCHANGE,
The decision of the counsel of the Produce Exchange that
the members should be assessed individually for the gratuity
due to the heirs of M. D. Carrington, instead of taking it from
the reserve fund, causes much dissatisfaction with many of
the members. They argue that as the death occurred prior to
April 1s came under the provision of the by-laws which redeves members from being assessed upon more than five
deaths in any one year. As the heirs are to receive only
65.856, the gratuity paid upon deaths prior to April 1, instead
of 46.832 upon deaths occurring since, they assest that this is
a recognition that it was a last year's death; also that the
betts may and the exchange for the differencence. Several ing collected, and it may result in this. The matter has stirred up much unpresent feeling that will enter into the

TALK ABOUT A SECOND TERM. VARIOUS OPINIONS FROM ALBANY.

REPUBLICANS THINK THE WASHINGTON STORY NOT

WORTHY OF SERIOUS CONSIDERATION. ALBANY, April 29. - The Democratic members of the Legislature claim to have given little attention to the public discussion that has been going on for a few days as to whether President Cleveland is a cashidate for recomination. Mr. Sheehan, the young leader from Buffalo, said to-day he had heard nothing about a second term except what he had caught up from the newspapers. "We don't know in Buffalo, as much about the President's intentions as some people elsewhere pretend to know," he said. "I haven't myself any opinion at present as to his plans

John F. McIntyre, of the XXIId New-York District, and a County Democracy man, said: "I think the President is a candidate for renomination. He could hard y help being a candidate, for I think the Democratic party will insist on his running again. The branch of the party that I belong to in New-York have not considered any one cise as a possible candidate, that I am aware of. There will be no difficulty about renominating bim. The party will see in due time that no other candidate that could be nominated would be so easy to make the fight of '88 with."

James P. Graham, of the XIth Brooklyn District, is James P. Graham, of the Atth Brooklyh District is perhaps, the nost pronounced and direct representative of the labor pointies of the State in the Legislature. He has been pretty quiet all winter, but occasionally when he has had occasion to be heard he has left an unmistakable impression that the Demohas left an unmistakable impression that the Demo-cratic in redients in his politics are subordinate to the labor ingredients. He said to-day with reference to the current second term talk: "I think that it Cieveland thought be could get renominated he would be fast enough to run. He knows he couldn't be renominated it he wanted to be, and so he comes out at this early day with a declaration that he isn't accordinate. If he should he a candidate for renomia candidate. If he should be a candidate for renomination he knows he would only suffer the disappointment of being rejected by his party, whereas by giving out that he don't want a second term he can make it appear that he is able to get along without the Demo-cratic party. It would be a sore spot in him all the rest of his life if he should put himself forward and be set asiae in the National convention. I don't think Mr. Clavel, and will ever be President again."

James E. Power, of the HIId New-York District said: "I presume he is a candidate. I see some of the papers are disputing this, but I haven't any doubt he would take a second term if it was offered to bim.'

George S, Weed, of the Clinton District, son of Smith M. Weed, was very shy on this subject. He blushed at the thought of any one suspecting him to be aithin range of the President's conndence, "Mr. Cleveland," said he, "is a queer kind of man in some respects. I haven't any means of knowing what his plans are about a renomination. The newspapers seem to differ as to whether he wants a second term."

Such cautious and responsible Democrats as Senator Daiy refrain from discussing the second term question except in the most general terms. "I am a supporter of the Administration," said Senator Daly, "and am satisfied with the President. What will come about in 1888 it is too early to speculate about."

Among Republicans here, the recent talk from Washington about Cleveland not being a candidate for re-election is thought to be hardly worth serious consideration. They regard it as a feeler thrown out by the Cleveland men in the Democratic party for the purpose of getting a boom at this time from the Cleveland Democratic and Mugwump papers. The Republicans manifest very little concern on the question whether Cleveland is or is not a candidate for renomination.

Governor Hill is playing the schoolmaster more ener Governor Hillis playing the schoolmaster more energetically this year than he has done heretofore. Most of his vetoes have been predicated upon the error of special legislation, but the other day he had the friends of the bill to regulate the price of gas in Brooklyn recalled to have amendments to suit his notions put it. One of the amendments was changing the worling "in citles of over 400,000 and less than 800,000 inhabitants." To "the city of Brooklyn." This change takes the bill out of the general class and puts it into the special class. By putting in the worls, "city of Brooklyn." are quired by the Governor, the law will be open to multification by the courts on the ground that being special it is unconstitutional.

A prominent Republican member of the Senate Committee on Cities remarks the uniformity with which Mayor Hewitt and his "cabinet" approve of bills increasing the salaries of New-York officials. Some of these a majority of the committee would reject if they were not advocated by the local authorities.

CHARGES AGAINST PRESIDENT COLEMAN AND MR.

Charles I. Schampain, of No. 298 Broadway, vice president of the Central Taxpayers' Association, through his counsel, Isaac L. Egbert, has presented charges against President Michael Coleman and Tax Commus. Colon. sioner E. C. Donnelly. The charges contain thirteen specifications, and the Mayor is asked to investigat them. The main charge is not a new one. It is that the personal estate of William H. Vanderbilt was assessed at a sum far below the real amount. The other charges are similar in the case of railroad companies. The following cases are given, where the assessed valuation of the

ONE EFFECT OF THE RECIPROCITY TREATY. The proclamation of President Cleveland suspending dis-criminating duties and tourage tax upon vessels of the Netherlands and Dutch East Indies, in view of the reciprocity treaty, is gratifying to shippers interested in the trade, we-necially to agents of such vessels. H. W. O. Edve, agent of the Netherlands-American Steam Navigation Company, and

the Netherlands-American Steam Navigation Company, and who is also interested as agent of a large number of sailing vessels, said yesterday:

This proclamation suspends the solication of the whole of the duty of six cents per ton, not to exceed thirty cents per ton per annum, upon vessels entering any of the ports of the United States from the Netherlands or from the free ports of the Dutch East Indies. But it only applies to those vessels under the registry of the Netherlands. It will be of special advantage to our steamers, whe have seven steamers, each making an average of seven trips a year to Now-York. Their tonnage will average 2,500 tons each, which means, under the reciprocal treaty, a relief from the payment of from \$2,000 to \$5,000 tonnage duties upon each vessel a year. We have a large number of sailing vessels that will average a thousand tons each, and relieving them from the payment of about \$00 tons and the tons cach, and relieving them from the payment of about \$00 tons ach, and relieving them from the payment of about \$00 tons ach, and relieving them from the payment of about \$00 tons ach, and relieving them from the payment of about \$00 tons ach, and relieving them from the payment of about \$00 tons ach, and relieving them from the payment of about \$00 tons ach, and relieving them from the payment of the foreign tramp steamers, which will be a good thing for the regular lines, as well as for the shippers.

TO DEFEAT THE GORMAN RING IN A YLAND. BALTIMORE, April 20 (Special).—The se annual meeting of the Maryland Reform League te-slaht was the most important in its history. The reports showed that in the last six months a number of ju ges and e lerks of election, guilty of frauds at the last election, had been convicted and that the league attorneys were preparing to prosecute more of these offenders. It was shown that several of the city bosses in the Gorman ring had become terrified and now united with the reform movement auxious to atone for the past political sins. Plans were formed for pushing the campaign vigorously throughout the State, and meetings will begin in a couple weeks.

movement anxious to atone for the past political sins. Plans were formed for pushing the cainpaign vigorously throughout the State, and meetings will begin in a couple weeks.

George Cotton, ex-Police Commissioner, the man who, by his control of the Maryland Legislature, sent Arthur Gorman to the United States Senate, has offered, it is stated, to contribute \$10,000 or more to the reform campaign. Addresses denouncing Gorman and his methods were delivered by Charles J. Bonaparte and S. Teackle Walias at the reform meeting to-night.

MISS MITCHELL AND SIR LIONEL WEST.

Washington, April 28, Dispatch to The Philadelphia Press. The rumored matrimonial engagement between Sir Lionel Sackville West, Minister of Great Britain, and Miss Mattie Mitchell, daughter of the junior Senator from Oregon, is authoritatively denied. It has at no time found credence in well-informed circles, but ranks with the wildest of the brood of wild canards in which the social season has been prolific.

Miss Mitchell is a reigning belle here, and is intimate with Minister West's three daughters in society, who are all near her own age. Sue has attended many of this season's parties with them under the escort of their father, or has taken them with her under the chaperonage of Mrs. Mitchell, but the frank friendslep existing between them does not end in her succeeding Miss Victoria, the eldest daughter, as mistress of ceremonies at the British Legation, a position in which Miss West has won golden opinious.

Miss Mitchell is a favorite visitor among all the prominent legation families, and it is no secret among them that she has received, not without favor, the attentions of a young Freuch nobleman just returned to Paris from wintering in Persia. The consent of Senator Mitchell to this disposal of his daughter's hand cannot be taken for granted, because he has from the first been averse to her marrying out of her own country, but the cutente cordiale between the young lady and her titled suitor is understood to have suffered in "see ahange."

THE RUSSET ORANGE

THE RUSSET ORANGE.

Florida Correspondence Boston Tremscript,
The readish-brown color, or "rust," of many of the
Florida oranges is indeed due to a diseased condition of
the orange trees. An insect, too small to be visible to
the naked eye, makes its home upon the leaves of the
tree and upon the rind of the fruit. These "miles" so
called, live upon the oil in the leaves and rind and in no
two indices of the reading of the tree.

Here in Orlando, Fla., where oranges may be had in
great numbers and perfection, many prefer the rusty
oranges, or "russets," as they are esiled, for several reasons. First, they are almost invariably found to be
sweeter than the bright fruit, owing to the touchening of
the skin which prevents evaporation of the juices. Also,
they bear shipping better than the other sort and will
keep longer. The absence of oil in the rind prevents the
smarting sensation so often felt where the skin of an orange comes in contact with the mouth, thus making it a
pleasanter fruit for eating purposes. I frequently select
the blackest one to be had.

The bright fruit brings a higher price in Northern markets, but when the merits of the russet are better known,
it will be more appreciated and remunerative.
